the Hi-Audio platform to music colleagues							

Q21. What did you find most useful about the Hi-Audio platform?

only the collaboration between users

Q22. Did you encounter any challenges when using Hi-Audio? If so, please describe them

No challenges, but it's too basic to use professionally, as we cant choose the record point, can't crop or edit the sound files or do basic sound volume enveloping, so it has no advantage comparing to other software

Q23. Can you think of any other situation where Hi-Audio platform could be useful?

No
